

## Reading Vocabulary Development

Look at each of the following terms. We have been working on these terms since last year and you should be familiar with each term and be able to identify it in literature. However, for each term that you are not familiar with, create a PowerPoint slide. Your slide should include the definition of the term, an example found in literature, and a visual. This is for your independent growth and development as a reader. If you need help with a term, let me know and I will gladly help you.
